COVID-19 | A Message from the Planning Division

Planning Division – Planning Applications during COVID-19

The Planning Division will continue to do its best to maintain services as we wade through our current crisis as it presents itself today. If you require these services, please see details below for important information.

The health and safety of our staff and our customers are equally important so we have initiated some measures in order to maintain Planning services.

Please be aware that delays or disruptions to these services may occur with little or no notice. We will do our best to keep this page up-to-date as things evolve.

All applications will be administered as far into the process as we can but please keep in mind we cannot hold open houses, public meetings or Committee meetings until the COVID-19 pandemic has subsided. We apologize for any delay, but our hope is that the applications submitted during this time will be ready to present once we are advised meetings may be held again.
