

PUBLIC NOTICE

UPDATE: Pet care and grooming services during shutdown

January 10, 2021

After further discussion and investigation with the Niagara Region and the provincial government, the latest update on pet care and grooming services in Port Colborne is that dog and pet grooming is not available during the provincewide shutdown.

At this time, the Government of Ontario has permitted the following services essential only:

- Veterinary Services: for services that are necessary for the immediate health and welfare of the animal, provided through curbside pick-up and drop-off of the animals
- Other businesses that provide for the health and welfare of animals, including farms, boarding kennels, stables, animal shelters and research facilities
- Businesses that provide pet training exclusively for service animals
